Workforce for the Future – Skills for Clean Growth Launch Event and Workshops

This Spring and Summer 2022, UWE Bristol will be holding free networking events, training and workshops to help SMEs based in the West of England to manage the risks and embrace the opportunities from the transition to net zero.

As a participant in the [Workforce for the Future programme](#) you and your colleagues have access to a range of fully funded training and workshop opportunities, which will continue to develop. These workshops are open to multiple individuals from your organisation, so please ensure each person registers their place. Upcoming networking events and workshops include:

Skills for Clean Growth – Launch Event

25 May 2022, 8:30 – 13:30 at UWE Bristol Frenchay Campus

This event will bring together key stakeholders and SMEs on the programme, whilst providing an overview of the overall Workforce for the Future programme and the support available through Skills for Clean Growth. There will be several speaker slots from key partners, UWE academics and industry leaders with a green skills and low carbon focus.

The Language of Net Zero

25 May 2022 (at the above Launch Event), 10:05 – 10:55

The sustainability space is littered with terminology and acronyms that can mean very little to most people. This session is aimed at helping to demystify terminology used in relation to sustainability and the environment, focusing on the meaning behind language and acronyms frequently used by people including in government and in academia. Areas covered include what's meant by Net Zero, what are Scope 1,2 and 3 emissions and what's meant by the circular economy

An introduction to Carbon Measurement

25 May 2022 (at the above Launch Event), 11:00 – 12:30

This session will look at the ways you can start measuring and reporting on carbon emissions from your business, including: Scope 1,2,3 emissions - what are these and what falls under each category, Balancing carbon reduction with other sustainability issues (such as single use plastics), Frameworks to measure emissions from your business, and Setting benchmarks and targets.

Workforce Engagement and Behaviour Change

21 June 2022, 9:00 – 11:30 at UWE Bristol Frenchay Campus

Your staff are your greatest allies in creating positive change at work and will help your organisation to:

- Reduce its overall carbon impact and implement sustainability targets
- Embed sustainable work and lifestyle practices
- Provide new ideas and ongoing impetus.

Use this session to explore how to get staff involved and to learn from policy and practical initiatives instigated by UWE staff and students. The session will incorporate a tour round campus taking in a range of sustainable features and will aim to equip you with a feasible action plan for staff engagement for your business.

Green Energy Management and Procurement

06 July 2022, 10:00 – 16:00 at UWE Bristol Frenchay Campus

This introductory session will immerse you in the world of green energy, from procurement and improving energy efficiency in your business to investing in on site generation and new energy systems. Find out the cost and carbon implications of different approaches and explore the best approach for your business to take.
